Professional Summary

Data analyst with a background in sociology and statistics and more than 5 years of experience analyzing large-scale survey, census, and media data. Focused on population segmentation and group-level analysis, with specialization in descriptive statistics, visualization, and dashboards to support decision-making.

Professional Experience

Population Statistics Analyst – National Institute of Statistics and Census (INDEC)

Buenos Aires, Argentina | Aug 2021 – Present

- Analyze large-scale survey, census, and administrative data to identify socio-demographic and behavioral patterns.
- Develop dashboards and reporting tools in R and Shiny to support decision-making across research and communication teams.
- Apply descriptive statistics and comparative analysis to support insights at a national level.
- Collaborate with cross-functional stakeholders to translate complex analyses into clear, actionable insights for non-technical audiences.

Selected Data Products & Outputs:

- Integrated System of Social Statistics (SIES) — Interactive dashboard (Shiny).
- Statistical dossiers focused on specific audience segments (women, older adults, children and adolescents).
- 2022 Population Census: Summary of Results.

Content & Data Analyst – Punto Rojo

Buenos Aires, Argentina | Jan 2019 – Jul 2021

- Developed data-driven content and audience strategies across Latin American markets.
- Analyzed content and media performance metrics to identify consumption patterns and regional trends.
- Implemented data collection, web scraping, and basic automation processes.
- Coordinated editorial workflows and collaborated with marketing and commercial teams.

Marketing Assistant - Claroviajes Latinoamérica

Buenos Aires, Argentina | Dec 2012 – Mar 2017

- Content creation and editorial support for tourism products
- Content planning and publishing across social platforms
- Audience engagement and performance analysis to identify conversion opportunities
- Trend monitoring to inform campaigns and content strategy
- Support for digital campaigns across web and newsletters
